Please update the school website

I am seeing a huge climate change, and I am excited about the direction I see our school sgoing.

This set up for back to school night was confusing and not very informative. Each class had a line and we had to listen to info for many other classes. By the time we got to the front of the line we just wanted a signature to move on.

Go back to the previous back to school night set up

Tell us a little more about yourself...

## Which of the following options apply to your child(ren)?
