

WASC Workshop #2 Evaluations

24 responses

To what extent do you feel the goals/objectives for this course/workshop were accomplished?

23 responses

How would you rate the overall effectiveness of the facilitator -- preparation, style, methods, rapport -- for this workshop?

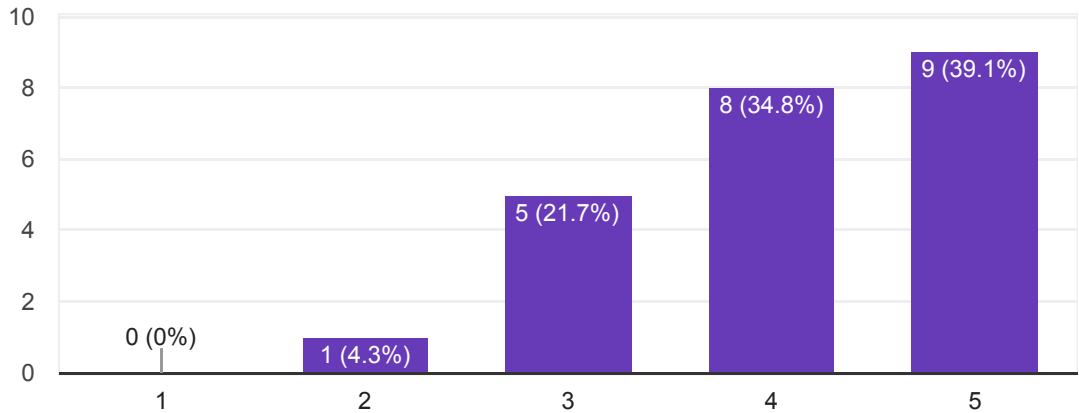

23 responses

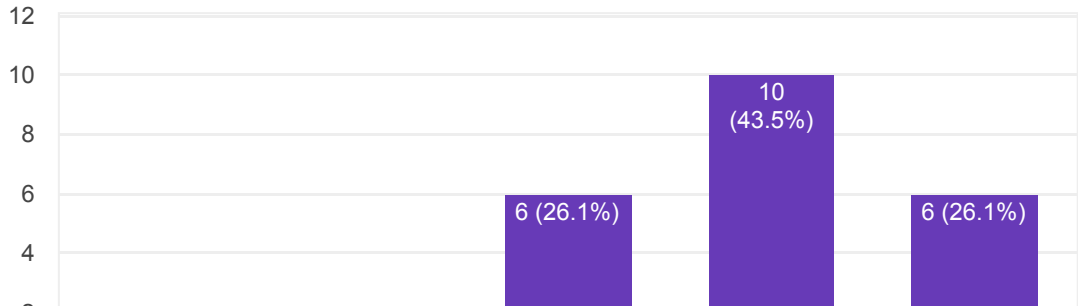

To what extent did this workshop provide you with meaningful opportunities for analyzing, interpreting, and evaluating our school progress?

23 responses

To what extent did this workshop provide you with meaningful opportunities for understanding and identifying our next steps in the self-study process?

23 responses

What suggestions do you have for improving this workshop?

12 responses

None

Perhaps assigned groups. Some were larger or smaller and dynamics change with size.

Examples of expected outcomes would be helpful

I thought this workshop was very well organized and I am looking forward to the next step.

The only thing I can think of is perhaps to discuss further the next steps (or what will be doing as a staff next) so we can see where we are continuing to go and can continue thinking about it. Overall very helpful!

Nonw

Have us read the article before we meet to give more time for discussion. Give an example of what you are looking for in the SLOs. Serve chocolat and espresso.

None, thank you.

These activities seem to be very redundant with little change resulting from the effort.

Summarize the Schoolwide Learner Outcomes for all groups (common themes?)

I think this workshop was a good start. The cage-buster article was great. I literally tossed out all my preconceptions about teaching my subject, like no set standards, and considered what I would want to see. Eye-opening

time to connect to my lessons

What, if any, suggestions do you have for aditional workshops as we move forward with our self-study?

11 responses

Finalizing the outcomes

What are our next steps?

have data to review in advance...hard copy easier to compare

I suggest working in groups with other teachers in your grade level.

Chocolate passed by me...

Practical implementation: choosing goals and determining how we are going to focus on them.

Keep 'em coming! Great experience.

Keep on website and organize results.

Have our administrators take a more active role in telling us how this effort will result in action.

The Group Problem-Solving Techniques were beneficial; we accomplished something (rather than just talking). More accomplishing and making decisions/progress is good.

We identified some areas of need but I'm not exactly sure where to go next. I guess we will be given specific areas to focus on. I will focus, I will!

Other comments?

Nice job.

Really well presented

Liked being able to choose our groups.

Thanks, Carla!

The article was great. I liked working in groups.

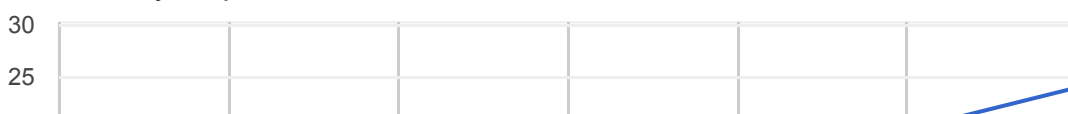

Great job!

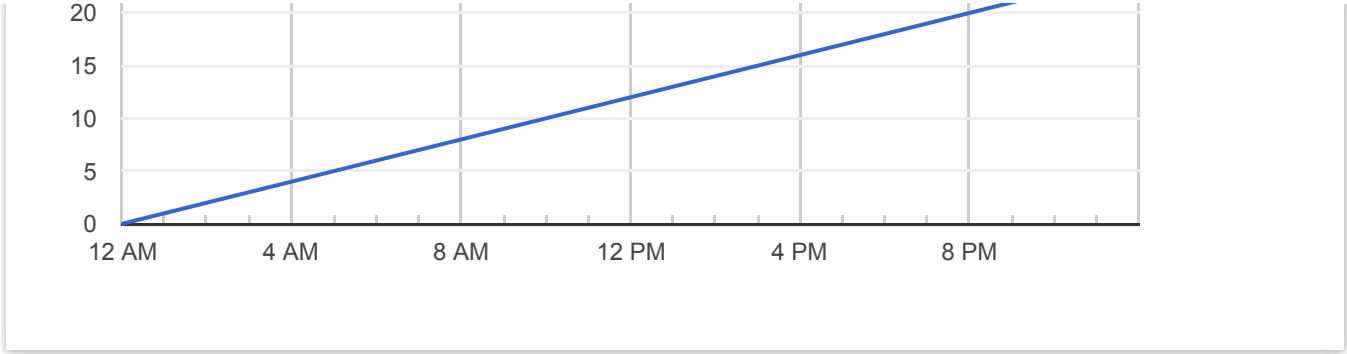

Thanks for all the thoughtful preparation and time. Very well organized and put together. Especially for such a complex topic!

Thank you.

Are we going to look at more data? Oars? Is it needed?
